From: Timothy Morales, City Manager

Subject: Rubbish Collection – Purchase of Collection Services Trucks

Prepared by: Don Riley, Public Services Department

Manager’s Recommendation:

In anticipation of the sale of the General Obligation Capital Improvement Bonds, it is recommended that a purchase order be approved and issued to Bell Equipment Company, of Lake Orion, Michigan, at the national bid price of \$1,068,000.00 for the purchase of four 2015 Solid Waste and Recycling Collection trucks for the Rubbish Collection Fund.

Justification:

National Joint Powers Alliance (NJPA) complies with the City of Saginaw Purchasing Ordinance; NJPA is a municipal contracting government agency that serves education and government agencies nationally through competitive bid and awarded contract purchasing solutions.

Beginning January 1, 2016, the City of Saginaw’s Street Section of the Right of Way Division will be, as an operational efficiency and cost saving measure, providing collection of the City’s recyclable materials, and beginning on April 1, 2016, will be providing collection of the City’s yard waste debris. These units will be used in the daily collection of yard waste and recyclables from residence throughout the city. These vehicles will also be used in the Environmental Division for use of enforcing the City of Saginaw Codes related to rear lot cleanups and curb violators. The two (2) existing environmental trucks are over thirteen (13) years old and have over 80,000 miles on each. These trucks have extensive wear, rust and fatigue to the body, frame and driveline with mechanical issues that make these pieces of equipment expensive to maintain in useable condition.

Bell Equipment Company meets all requirements of §14.23, “Vendors,” of “Purchasing, Contracting, and Selling Procedure,” of Chapter 14, “Finance and Purchasing,” of Title I, “General Provisions” of the Saginaw Code of Ordinances O-1.

Funds for this purchase will be made available after the sale of the General Obligation Capital Improvement bonds in the Capital Project Fund – Rubbish Collection Division’s Vehicle Account No. (401-4582-982.000).

Council Action:

Moved by Council Member _____, seconded by Council Member _____ to approve the recommendation from the City Manager.

From: Timothy Morales, City Manager

Subject: Replacement Street Sweepers

Prepared by: Don Riley, Public Services Department

Manager's Recommendation:

In anticipation of the sale of the General Obligation Capital Improvement Bonds, it is recommended that a purchase order be approved and issued to The Safety Company, LLC – d/b/a Mtech of Cleveland, OH, at the HGACBuy Contract price, in the amount of \$381,658 for the purchase of (2) 2016 Global M3 Street Sweepers.

Justification:

On November 25, 2013 Council authorized the City Manager or his designee to execute the Inter-local Contract allowing the City's initial HGACBuy contract purchase which allows Municipalities to use the purchasing power of National Bids to expedite procurement, receive volume-purchasing discounts, and many other significant benefits.

The Streets Section of the Right of Way Division is replacing a 1991 and a 1998 Elgin Pelican street sweeper with 12,000 hours and 9,700 hours, respectively. These sweepers were scheduled for replacement in 2001 and 2008. They have extensive wear, rust, and fatigue to the body, frame, and driveline along with mechanical issues that make these pieces of equipment expensive to maintain in useable condition. These are frontline pieces of equipment used in the daily cleaning of city streets. These cleaning operations remove road erosions and environmental debris, which would normally be washed into the sewer drains during rain events. Operating efficiency, operator safety, and loss of productivity due to down time are contributing factors to the need to replace these pieces of equipment. One of the proposed replacements is a recently produced demonstrator unit making it immediately available and offering us additional savings. Following is the vendor and cost of the equipment:

The Safety Company, LLC – d/b/a Mtech. Cleveland, OH

2016 Global M3 Street Sweeper	\$192,079.00
2016 Global M3 Street Sweeper demonstration unit	<u>\$189,579.00</u>
Total	\$381,658.00

The Safety Company, LLC – d/b/a Mtech, meets all requirements of §14.23, "Vendors," of "Purchasing, Contracting, and Selling Procedure," of Chapter 14, "Finance and Purchasing," of Title I, "General Provisions" of the Saginaw Code of Ordinances O-1.

Funds for this purchase will be made available after the sale of the General Obligation Capital Improvement bonds in the Sewer Operations and Maintenance Fund - Surplus Division's – Maintenance Equipment Account No (590-4840-978.000).

Council Action:

Moved by Council Member _____, seconded by Council Member _____ to approve the recommendation from the City Manager.

From: Timothy Morales, City Manager

Subject: Replacement of a Vactor Combination Sewer Cleaner

Prepared by: Don Riley, Public Services Department

Manager's Recommendation:

In anticipation of the sale of the General Obligation Capital Improvement Bonds, it is recommended that a purchase order be approved and issued to Jack Doheny Supplies of Northville,MI at the national bid price of \$449,714.80 for the purchase of a 2016 Vactor Combination Sewer Cleaner.

Justification:

National Intergovernmental Purchasing Alliance (NIPA) complies with the City of Saginaw Purchasing Ordinance, prices are received on a National Basis for municipalities as those items are bid and the City of Saginaw can purchase from this list of equipment while saving 5% off the total purchase cost. By participating in this purchasing alliance the City is saving \$23,669.20 on this purchase.

Various other Michigan municipalities that have purchased similar Vactor Combination Sewer Cleaner Trucks utilizing NIPA include Ann Arbor, Rochester Hills, Troy, and Holland.

The existing Combination Vactor that is being replaced is a 2002 Sterling with the Jet Rodder and Vacuum built into the truck. This is one of two Front Line Combination Sewer Cleaner and Jets that are responsible for cleaning and maintaining of over 300 miles of 8" through 144" Collection and Trunk Sewers and 15,000 catch basins. These units are used as vacuum excavators when the situation dictates a dig around sensitive utilities (fiber cable, high pressure gas mains, and expedite emergency digs). The current truck has 40,076 miles and additional run time on the drive engines power take off-drive, which is equivalent to almost 300,000 miles when converted to over-the-road mileage. In the past 13 years, the Jet Pump and Vacuum Fan have been replaced two times, the auxiliary engine has required several major repairs, and numerous original equipment parts have been replaced.

These trucks are operated year round regardless of weather conditions. The City's fleet of Combination Sewer Cleaning Machines removes approximately 1,200 cubic yards of debris annually from the sewer systems and assists in many excavations required for sewer maintenance. The oldest Vactor Truck has been down for repairs on an ever-increasing scale. These trucks must comply with P.A. 451 that governs operation of Publicly Owned Waste Treatment works and the maintenance thereof.

Following is the vendor and cost of the Combination Jet Rodder Vacuum Truck:

Jack Doheny Supplies		\$473,384.00
Northville, MI	Less 5% Discount	<u>-\$23,669.20</u>
		\$449,714.80

Jack Doheny Supplies meets all requirements of §14.23, "Vendors," of "Purchasing, Contracting, and Selling Procedure," of Chapter 14, "Finance and Purchasing," of Title I, "General Provisions" of the Saginaw Code of Ordinances O-1.

Funds for this purchase will be made available after the sale of the General Obligation Capital Improvement bonds in the Sewer Operations and Maintenance Fund - Surplus Division's – Maintenance Equipment Account No (590-4840-978.000).

Council Action:

Moved by Council Member _____, seconded by Council Member _____ to approve the recommendation from the City Manager.

From: Timothy Morales, City Manager

Subject: Maintenance and Service - Replacement of a 7 and 10 Yard Dump Trucks

Prepared by: Don Riley, Public Services Department

Manager's Recommendation:

In anticipation of the sale of the General Obligation Capital Improvement Bonds, it is recommended that a purchase order be approved and issued to the following vendors: Tri County International Trucks, Dearborn, MI at the state bid price of \$274,960 for the purchase of (2) tandem and (1) single axle 2016 International Cab and Chassis; and to Truck and Trailer Specialties, Inc. Dutton, MI at the state bid price of \$94,102 for dump body equipment installed.

Justification:

The Maintenance and Service Division is replacing a 1997 F700 7 yard dump truck, a 2000 Sterling LT7500 10 yard dump truck, and a 2004 GMC C8500 10 yard dump truck with 56,000, 72,000, and 49,000 miles respectively that were scheduled for replacement in 2007, 2010, and 2014. Extensive rust and fatigue to the bodies, frames, and drivelines, along with mechanical issues have made these trucks expensive to maintain in a daily use condition. These are front line trucks, used daily and required for emergency situations in the maintenance and repairs of utilities in the City on over 600 miles of water and sewer main and out City on over 110 miles of transmission mains that serve Saginaw, parts of Bay, and Tuscola Counties. Operating efficiency, operator safety, and loss of productivity due to down time contribute to the need to replace these three pieces of equipment. This purchase will be made using State bid pricing.

These vendors meet all requirements of §14.23, "Vendors," of "Purchasing, Contracting, and Selling Procedure," of Chapter 14, "Finance and Purchasing," of Title I, "General Provisions" of the Saginaw Code of Ordinances O-1.

Funds for this purchase will be made available after the sale of the General Obligation Capital Improvement bonds in the Sewer Operations and Maintenance Fund – Surplus Division's Vehicle Account No. (590-4840-982.000) in the amount of \$184,531 and the Water Operations and Maintenance Fund – Surplus Division's Vehicle Account No (591-4740-982.000) in the amount of \$184,531.

In addition, it is further recommended that city council accepts AIS Construction Equipment Company's offer of \$14,000 for the trade-in of the used 2001 JCB 212S Backhoe.

Prepared by: Brian Baldwin, Water and Wastewater

Manager's Recommendation:

I recommend that the quote from Waterworks Systems and Equipment, Inc. of Lakeland, MI, a sole source, be accepted and a purchase order issued to them in the amount of \$3,202.00 to purchase two chlorine and one sulfur dioxide vacuum regulators and various parts for stock to rebuild the chlorine and sulfur dioxide feed systems at the Wastewater Treatment Plant.

Justification:

The Wastewater Treatment Plant uses chlorine to disinfect wastewater and sulfur dioxide to remove residual chlorine before it is discharged. In July of this year, maintenance personnel rebuilt our chlorine and sulfur dioxide vacuum regulators as required every two years in our Process Safety Management Plan. The parts used for these rebuilds were taken from stock. On July 16, 2015, we received a quote from Waterworks Systems and Equipment Inc. in the amount of \$3,202.00 to replace these parts. Waterworks Systems and Equipment, Inc. is the manufacturer's representative for Capital Controls/Severn Trent replacement parts and is a sole source.

This vendor meets all requirements of §14.23, "Vendors," of "Purchasing, Contracting, and Selling Procedure," of Chapter 14, "Finance and Purchasing," of Title I, "General Provisions" of the Saginaw Code of Ordinances O-1.

Subject: Sale of Retired Fire Department 100' Ladder Truck

Prepared by: Christopher Van Loo, Fire Chief

Manager's Recommendation:

I recommend the ratification of the sale of the Saginaw Fire Department's retired 1986 Spartan / LTI 100' ladder truck to George Johns, Otter Lake, MI for \$5,050.00.

Justification:

In June of 2013, the Saginaw Fire Department retired from service a 1986 Spartan / LTI 100' ladder truck. This fire apparatus no longer had operational value for the Saginaw Fire Department. Fire Department personnel explored several options to sell or scrap the apparatus, but due to low demand for an apparatus of this age and condition and added expenses related to preparing it for scrap, the decision was made to place this apparatus up for auction with the GovDeals.Com auction service. 8 bids were received during the auction which was opened on July 24, 2015 and closed on August 10, 2015. The highest bid at the time the auction closed was \$5,050.00 from Mr. George Johns.

Funds for this purchase will be recognized in the General Fund Revenues - Sale of Property/Fire Department Account No. 101-0000-673.004.
